

NAME: _____

Open Research Project Resource Extraction

Part 1: Project Details

1. Name of company and resource extraction project:

2. Years active:

3. Location:

4. Give a brief description of the project:

5. What were the benefits for the company to do the project in this location?

6. What types of regulation would need to be in place for workers in this type of job?

Consider health and safety measures, wages, work hours. You may refer to the links in the PowerPoint.

Part 2: Different Viewpoints and Interests

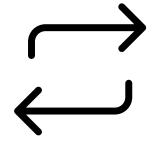

1. Were there locals who supported the project? If so, what did they like about it?

2. Were there locals who did not support the project? If so, what were the issues?

3. Were there any groups that opposed the project or tried to stop it?
Consider environmentalists or community members.

4. How much profit did the company make?

Part 3: What happened after?

1. Did the company offer fair compensation to the community?

This could be in the form of financial compensation or other benefits, like installing a road or offering housing.

2. What changes happened in the community during the project?

3. What changes happened after the project? What changes are expected to be seen?

Consider: Were there environmental impacts? Did the company restore the environmental damage it caused? What did the employees do after the project ended?
